

Sabrina Carpenter

”

Oh boy

*Met you on a summer beach
Sun kissed skin, out of reach
Jokes and smiles, I tried to play
Strangers' sparks light up the way
We saw life in different ways
But your heart pulled me all my days
September 4th, baby, sparks at night
Two hearts on fire, everything feels right
You lift me up, I won't come down
Every moment spins me round
Yeah, it's true—*

*From a beach in August, love brand new
Tiny me, but I move bold
Caught your eyes, story told
Laugh till dawn, secrets stay
Lit a spark we can't betray
We saw life in different ways
But your touch rewired my days
September 4th, baby, sparks at night
Two hearts on fire, everything feels right
You lift me up, I won't come down
Every moment spins me round
Yeah, it's true—*

*From a beach in August, love brand new
Late breeze said, "Stay with me"
We wrote our own melody
Thought it crush, now it's more
You're the twist I adore
September 4th, baby, sparks at night
Two hearts on fire, everything feels right
You lift me up, I won't come down
Every moment spins me round
Yeah, it's true—*

*From a sand-lit beach, love brand new
Hearts in summer, built to last
Turned a moment into fast
September 4th, here's our proof
Magic lives in you, for truth*
